

SHIPS AREN'T BUILT TO SIT STILL. NEITHER ARE WE.

From navigation, dynamic positioning and maritime automation to acoustic undersea warfare systems and more, L-3 Marine & Power Systems has the resources, people and technology to meet your needs for total system support. Equally important, as a proactive partner, we continually innovate and integrate technologies to meet new needs quickly, efficiently and reliably – all with open architecture flexibility. Today, we're coming through 24/7 for customers around the world with 88 locations in 19 countries. To see how we can do the same for you, visit us at L-3com.com/MPS.
